

# Annual Report

## 2019-2020

It has been such a pleasure to see AS Purposeful mature over the past 12 months. This year, we began delivering skills workshops to empower adults with autism, as well as piloting a new training program to support teachers in inclusive classrooms. We also continued to work with our valued partners, including the Australian Catholic University, which placed three Masters of Social Work students with us again this year, and Macquarie University, which worked with us to improve our marketing. Although the COVID-19 pandemic has temporarily limited our operations, the contributions made by all of our staff, volunteers, directors, and partners give us a strong foundation that we can build on over the coming years.
